

PILE DRIVER STEAM

The Pile Driver Steam hose is recommended for applications that require saturated steam service up to +388°F on driving systems. It features an EPDM tube that is specifically compounded to resist permeation and prevent premature failure. The multiple plies of tire cord with plated steel cable reinforcement enable this hose to maintain a working pressure of 200 psi, regardless of hose size.

RESISTANCE 
BRANDING Thermoid HBD Industries
 Pile Driver Steam Hose 200 PSI
 WP Serial Number Made In USA

Cover Color: Black
Oil Resistance: Limited
Construction:
Tube: EPDM, also available in CR for oil resistance
Cover: EPDM, also available in CR for oil resistance
Reinforcement: Multiple plies of tire cord and plated steel cable
Temperature Range: Saturated steam service to +388°F (+198°C)
Packaging: 100 ft. maximum
 Minimum order 300 ft.
